# SeneGence®

Was founded on the idea to offer superior products and an opportunity for women to be independent and successful in business, regardless of age, background, or education.

Joni Rogers-Kante had a vision of products that really work and a career that really works. Once she discovered a long-lasting liquid lip colour unlike anything she had seen before, she needed to share it with the world.

In 1999, SeneGence exploded into the marketplace with LipSense®, and quickly rose in popularity as the creator of The Original Long-Lasting Lip Color®.

This was the beginning of an entire line of long-lasting cosmetics and revolutionary anti-aging skin care products. SeneGence has now grown to support hundreds of thousands of successful careers and satisfy Customers globally in its commitment to use the most advanced ingredients to make skin more beautiful.

**"I stand behind our products 100% and guarantee your skin will look more beautiful in 30 days when using our all-day anti-aging skin care and long-lasting colour systems."**

## The Science of SenePlex+®

All SeneGence SkinCare and Cosmetics contain SenePlex+, a kinetic enzyme that works to affect the way cells grow from the bottom layers of the skin to the top. SenePlex+ fights the signs of aging by supporting skin renewal.

Verified by an independent lab, clinical testing performed over an eight-week period on 20 female subjects 18-55 years of age confirmed Normal to Dry Evening Moisturizer with SenePlex+ is highly effective in increasing skin renewal.

Regular use results in remarkable improvements to skin, including skin smoothness increased by **45%**. Almost **33%** more individuals with sensitive skin were able to use SeneGence SkinCare without irritation.

## The Perfect Match

When used together, Senegence SkinCare and Cosmetics provide all-day protection to help skin look and feel beautiful.

## Finding Your Undertone

Take a close look at the veins on the underside of your wrist.

Are your veins blue or purple? If so, then you are cool, and will look good in MakeSense® shades with pink or red undertones.

Are your veins green or olive? If yes, you are warm, and will look great in MakeSense shades with yellow undertones.

An alternative way to find your undertone is by taking a picture in both a cool-coloured shirt (such as gray), and a warm-coloured shirt (such as yellow). Whichever you feel you look the best in is likely your undertone.

Can't tell? Then you are neutral.

## How to Apply

Apply to clean, dry lips. For a defined look, line with LinerSense® first. With lips parted, apply LipSense® in one direction, beginning with outside corner of the mouth. Spread colour in a fluid, sweeping motion across lips to opposite corner (do not move applicator back and forth).

Apply three layers for long-lasting results, letting colour dry in between each layer. Finish with LipSense Gloss to maintain lasting colour and moist lips.

For proper use, purchase your LipSense in a collection which includes a colour, gloss, and Oops!™ Remover.
